

IoT

MONETISE IoT OPPORTUNITIES

5G will support billions of connected devices, and digitisation of healthcare, education, agriculture, and smart cities creating a huge demand for IoT with CSP providing the infrastructure. CSPs can leverage the new age technology solutions to utilise this promising digital opportunities.

STL IoT SOLUTIONS

STL's IoT solutions enable CSPs to realign their business model in sync with the promising IoT opportunities. It allows the CSPs to leverage their existing infrastructure and provides business agility and unlimited scalability that are vital for addressing IoT requirements. It is highly interoperable supporting multiple technologies allowing quick partner on-boarding and most complex engagement models.

**IoT SOLUTIONS CAN MAKE A HUGE DIFFERENCE
IN A PLETHORA OF BUSINESS VERTICALS:**

CONNECT. INTEGRATE. EVOLVE

Operations & IT teams equipped to move towards zero-touch operations

Quick response to market needs through Agile & DevOps adoption

360° view across technology, operations and business KPIs

Sterlite Technologies Limited(STL) is a global leader in end-to-end data network solutions.

We design and deploy high-capacity converged fibre and wireless networks. With expertise ranging from optical fibre and cables, hyper-scale network design, and deployment and network software, we are the industry's leading integrated solutions provider for global data networks. We partner with global telecom companies, cloud companies, citizen networks and large enterprises to design, build and manage such cloud-native software-defined networks.

STL has innovation at its core. With intense focus on end-to-end network solutions development, we conduct fundamental research in next-generation network applications at our Centres of Excellence. STL has strong global presence with next-gen optical preform, fibre and cable manufacturing facilities in India, Italy, China and Brazil and two software-development centres.
