

Investor Presentation January'20

Safe Harbour

Certain words and statements in this communication concerning Sterlite Technologies Limited (“the Company”) and its prospects, and other statements relating to the Company’s expected financial position, business strategy, the future development of the Company’s operations and the general economy in India & global markets, are forward looking statements.

Such statements involve known and unknown risks, uncertainties and other factors, which may cause actual results, performance or achievements of the Company, or industry results, to differ materially from those expressed or implied by such forward-looking statements.

Such forward-looking statements are based on numerous assumptions regarding the Company’s present and future business strategies and the environment in which the Company will operate in the future.

The important factors that could cause actual results, performance or achievements to differ materially from such forward-looking statements include, among others, changes in government policies or regulations of India and, in particular, changes relating to the administration of the Company’s industry, and changes in general economic, business and credit conditions in India.

The information contained in this presentation is only current as of its date and has not been independently verified. No express or implied representation or warranty is made as to, and no reliance should be placed on, the accuracy, fairness or completeness of the information presented or contained in this presentation. None of the Company or any of its affiliates, advisers or representatives accepts any liability whatsoever for any loss howsoever arising from any information presented or contained in this presentation. Please note that the past performance of the Company is not, and should not be considered as, indicative of future results. Furthermore, no person is authorized to give any information or make any representation which is not contained in, or is inconsistent with, this presentation. Any such extraneous or inconsistent information or representation, if given or made, should not be relied upon as having been authorized by or on behalf of the Company.

The Company may alter, modify or otherwise change in any manner the contents of this presentation, without obligation to notify any person of such revision or changes.

Persons should consult their own financial or tax adviser if in doubt about the treatment of the transaction for themselves

These materials are confidential, are being given solely for your information and for your use, and may not be copied, reproduced or redistributed to any other person in any manner. The distribution of this presentation in certain jurisdictions may be restricted by law. Accordingly, any persons in possession of this presentation should inform themselves about and observe any such restrictions

Our Discussion

- **Data Networks**
the next phase beckons
- **STL is ready**
an ecosystem Innovator
- **Two Innovation Engines**
delivering performance and growth
- **The Future is Exciting**
ambitious growth, sustainable financials

Data growth continues unabated

Next 50% of the world gets connected

Everything becomes data
video, entertainment, navigation, health, factories...

Users, Enterprises use connected apps for everything, everyday

Annual Size of the Global Datasphere

Source: Data Age 2025, sponsored by Seagate with data from IDC Global DataSphere, Nov 2018

Fuelling the investment cycle for creating Data Networks

Network creators need to invest for future

Telcos

huge 5G investments in mobility, backhaul

Cloud Players

many hyperscale and edge Data centres

Citizen Networks

large scale coverage to achieve 100% reach

Enterprise

massive modernization, new applications

Global Annual Capex (\$Bn)

CSPs (Telcos) and Hyperscale companies

Capex drivers and trends

- Increased data and compute demand
- Network densification due to 5G and IoT
- Virtualization, compute and storage at the edge

The next phase of the Data Network evolution

The next 4 billion people need an Internet that is pervasive & affordable

	From	To	
AGILE	Hardware	Software defined	VIRTUALIZED (programmable)
UPGRADABLE	OEM	Vendor-neutral	OPEN (standard)
CLOSER	Centralized	Disaggregated compute, memory and storage	EDGE
EVERYWHERE	fixed + wireless	Converged	CONVERGED
FASTER	Electrons	Photons	OPTICAL

A NEW REARCHITECTED ECOSYSTEM has emerged for the next phase of the Data Network

The new data ecosystem needs new generation of innovators

Legacy players

- Focused on rigid hardware
- Closed ecosystems
- Specializing in one part of the network layer

New ecosystem

- Focused on software defined
- Developing open standards
- Drive ecosystem of integration

Our Discussion

- **Data Networks**
the next phase beckons
- **STL is ready**
an ecosystem Innovator
- **Two Innovation Engines**
delivering performance and growth
- **The Future is Exciting**
ambitious growth, sustainable financials

Strong Corporate Governance

Independent Directors on the Board of STL

Kumud Srinivasan

(Non-Executive & Independent Director)

- VP and Director of Non-Volatile Fab Manufacturing and Automation Systems at Intel Corporation
- Has spent 30 years at Intel in US, leading multiple global functions, prominent ones being R&D for technology manufacturing, industrial automation and IoT for manufacturing facilities
- She served as the President of Intel India from 2012 to 2016

Sandip Das

(Non-Executive & Independent Director)

- One of Asia's most respected telecommunications professionals and an acclaimed Chief Executive
- Ex-MD of Reliance Jio, Group-CEO, Maxis Communications and Hutchison Essar Telecom (now Vodafone), India
- One of the founding members of private telephony in India and was part of the group of individuals that founded Hutchison Max Telecom in 1994

A. R. Narayanaswamy

(Non-Executive & Independent Director)

- Chartered Accountant & Management Consultant with over 35 years of industry experience
- Member of The Institute of Chartered Accountants of India
- Provides consulting services in accounting, financial management and information technology across several industry verticals

Arun Tadarwal

(Non-Executive & Independent Director)

- Partner of Tadarwal & Tadarwal, a Mumbai based firm of Chartered Accountants
- Member of The Institute of Chartered Accountants of India
- Has rich and varied experience spanning over three decades in management consultancy, finance and audit

Network Services

Network Services Overview

Hyperscale Converged Networks

Intelligent Digital Ecosystem

Long haul - Core Network

Access Connectivity

Active Transport

Mobility

Data Center

Security

Applications

Inter-city, Intra-city

Wireless backhaul, Front haul

MPLS, DWDM, Advanced transport technologies

Virtualized/Open RAN/Orchestration

Cloud and on prem Service

Complete Security - convergence of physical and cyber

Big data Network analytics, IoT and AI platforms

1 Hyperscale FR (powered by LEAD360o)

2 FTTx Mantra (powered by 5i)

3 DNA (powered by iCORE)

4 4G LTE Private/Enterprise Small cells Rural

5 5G NR Private/Enterprise Small cells Rural

6 Massive connectivity solutions -

7 Physical security with Sensron +

8 Cyber security with Sensron dot

9 STL Garv Supercomputer for villages

10 NEXT Networks (E2E Network modernisation)

Creating networks across all customer use cases and segments

Enterprise

\$500 million multiyear project to design, execute, operate & maintain the Indian Naval Digital Network

\$350 million project for creating the world's largest intrusion-proof smarter network infrastructure in J&K for the Indian Army

Telcos

Comprehensive network design & deployment across core & aggregation for home, enterprise & mobility

Comprehensive future ready network design & technology led fast deployment

Citizen Networks

Connecting 7.5 million people in the state of Maharashtra using unique STL LEAD 360 approach

Impacting positively 325K lives with smart IoT driven infrastructure in Kakinada Smart City

Cloud Players

Hyperscale Inside Data Center design & deployment with energy and data flow planning

Data Center Interconnect with high capacity secure optical connectivity

Driving leadership through technology for the new ecosystem

Organically Developed Technology Solutions

Integrated Access Network
Setup

Algorithmic Design

Ultra Fast Deployment
Automation & Robotics

Acquired/Invested Capabilities

Inside Data Centre Services

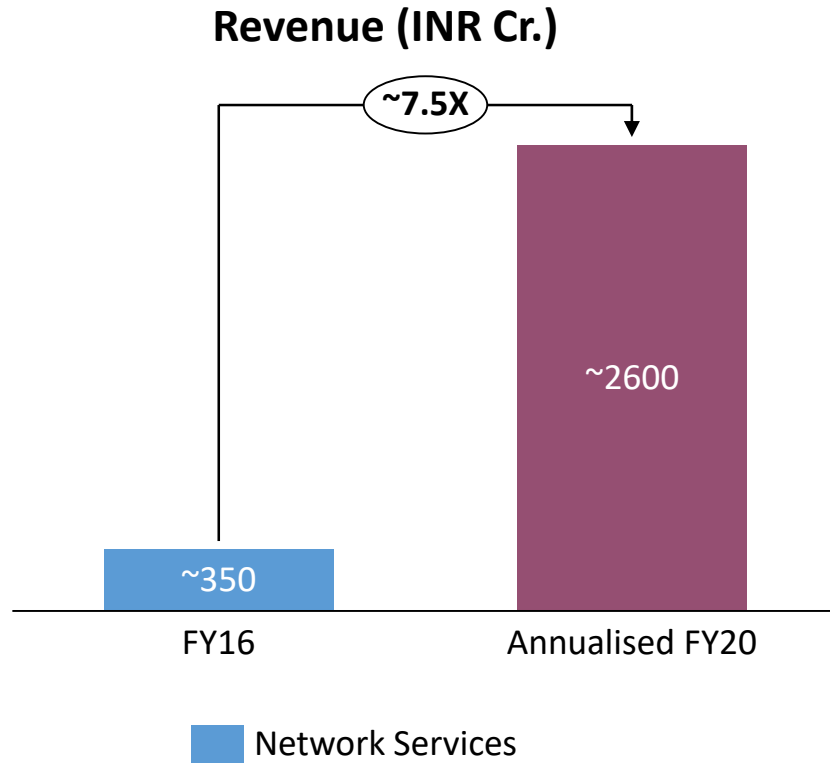

Virtualized RAN

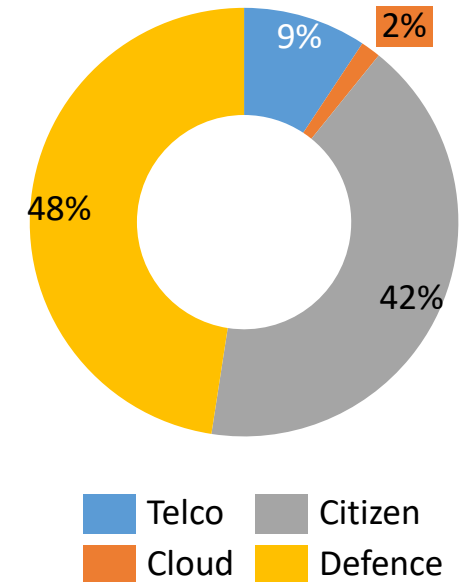

OSS/BSS

Strategic growth Engine

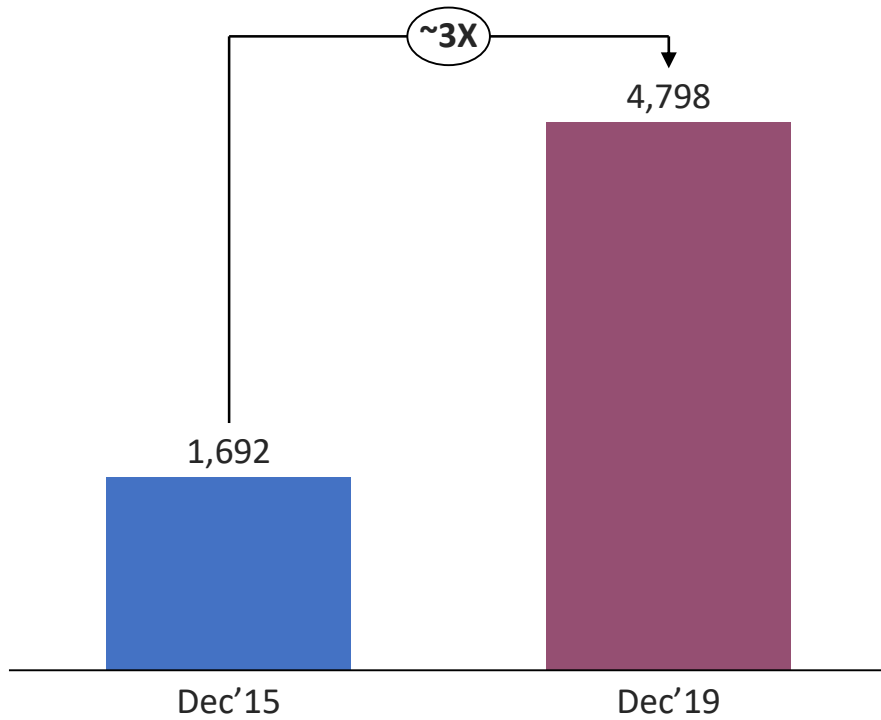

Revenue Split YTD FY20:
Customer Segment

Network Services is enabling STL to become the strategic partner to our customers by providing end to end solution.

Continuing unabated growth

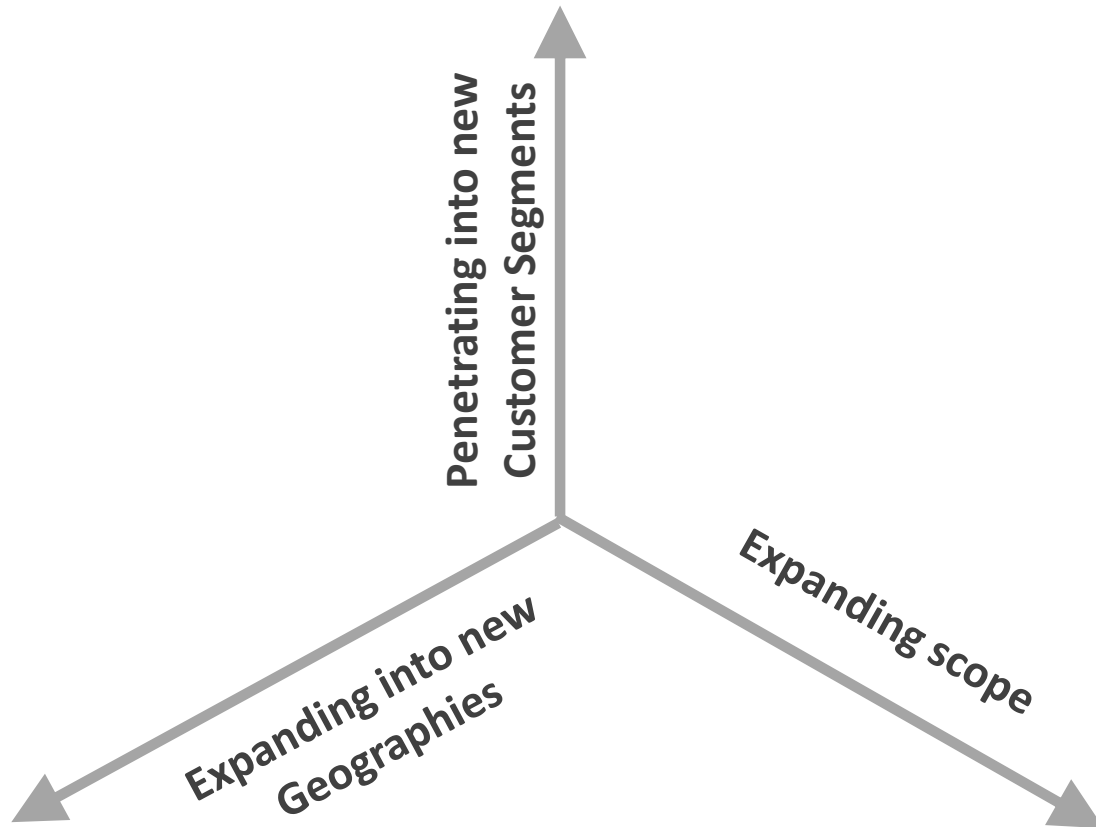

Order Book Growth (INR Cr.)

Order Book Split (INR 4,798 Cr.)

Strategic levers for continued growth

Penetrating into new Customer Segments

1. Expanding significantly in Telco Segment
2. Expanding in Cloud Segment through leveraging acquired capability

Expanding into new Geographies

1. Becoming a Pan India Player (Currently operate in 8 States)
2. Exploring Markets outside India

Expanding scope

1. Developing capabilities to further increase the scope of services

Connectivity Solutions

Connectivity Solutions Overview

OPTICAL FIBRE AND PREFORM

- Full suite of ITU-T fibre products from low loss to bend insensitive fibre
- Centre of Excellence for Fibre research

OPTICAL FIBRE CABLES

- Customised cabling products for FTTx, utilities, oil and gas, transport and defence applications
- World-class Installation Lab for rollout testing

STRUCTURED DATA CABLES

- For a variety of applications in structured cabling – From data centres to enterprise
- Experiential Lab to test latest innovations

PASSIVE CONNECTIVITY

- Modular, customizable, Plug-n-Play solutions for multitude of FTTx applications
- In-house design & development capability

Global Manufacturing footprint & Supply chain

Multi-fold increase in capacity

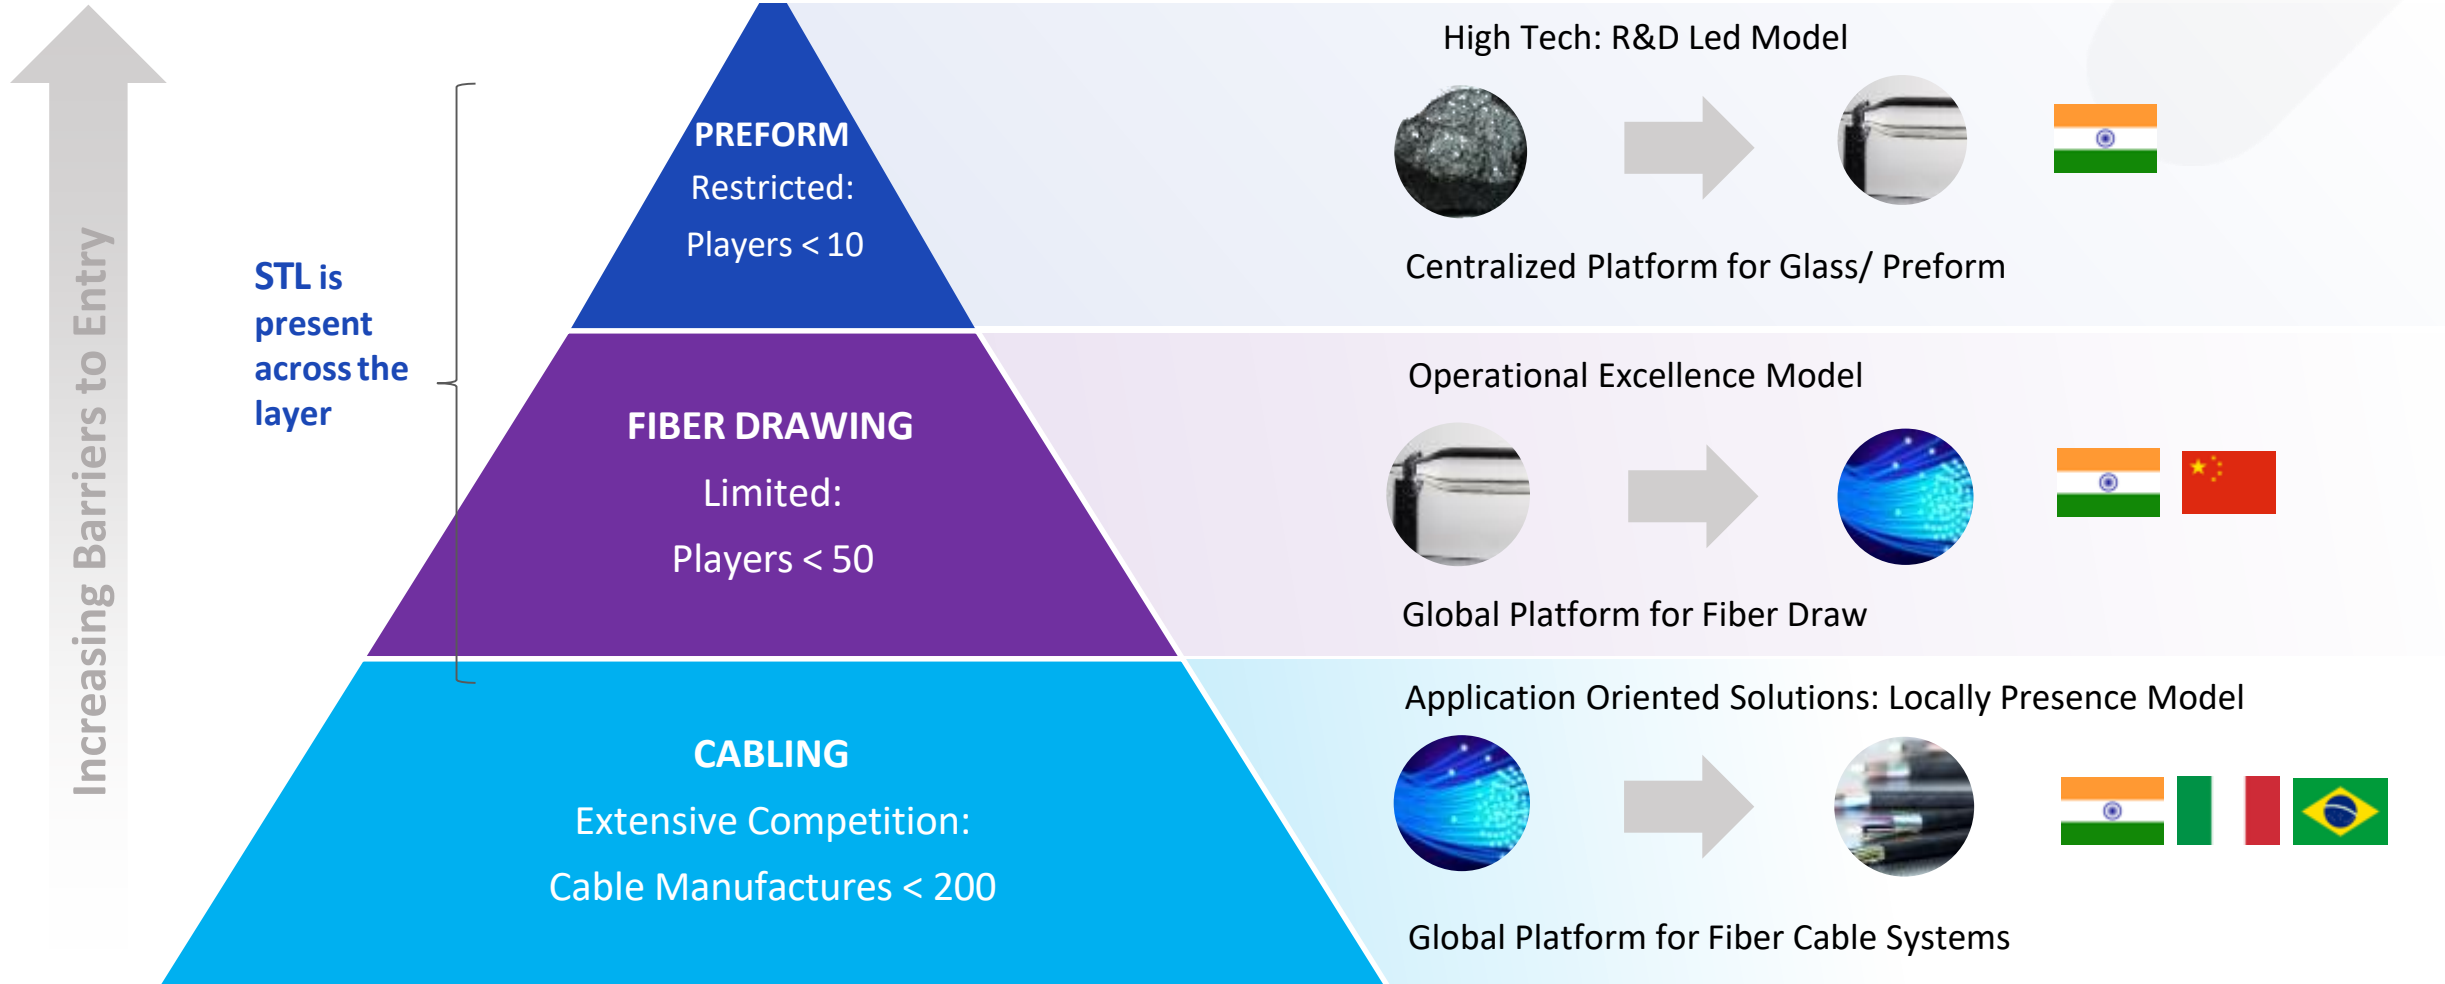

Industry 4.0 standards

Fully automated machinery with robotic operations

Efficient supply chain

Reduced delivery times and SCM cost

Differentiating with full vertical Integration

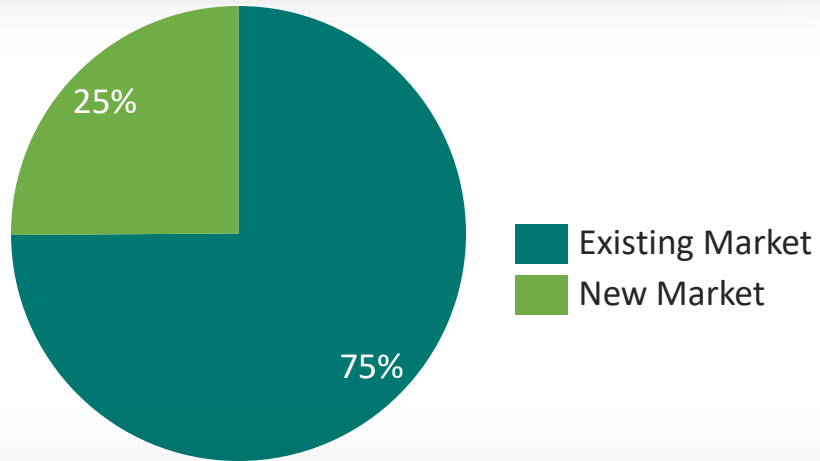

- Glass Science
- Chemical Engineering

- Fluid Mechanics
- Large scale Automation

- Wave Optics
- High Temp processing ~ 2000 deg. C

Strategic levers for continued growth

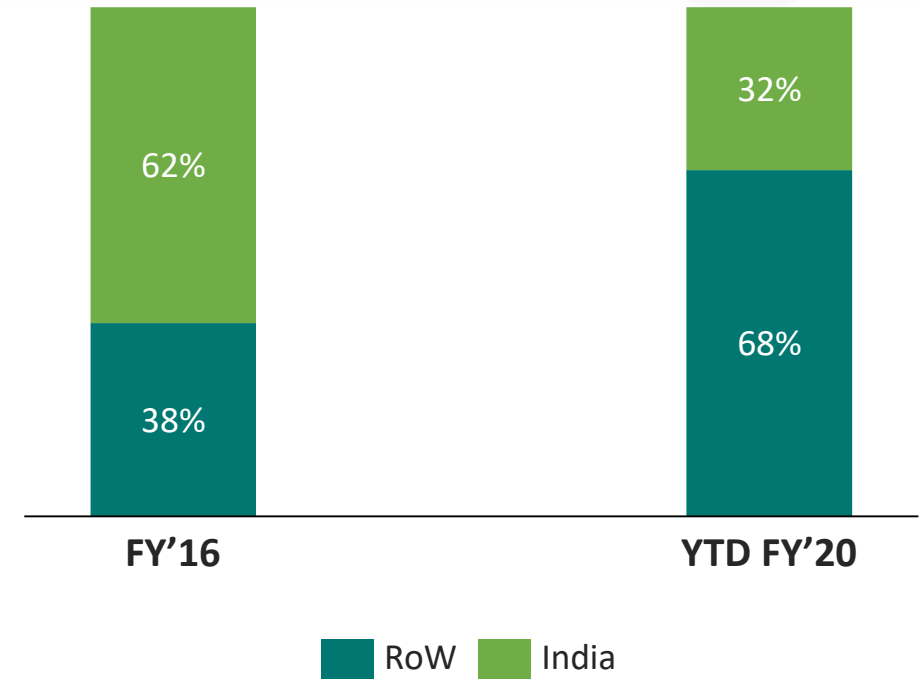

A) New Market Entry

B) New Product Strengthening

Consistently growing presence across the world

Our Discussion

- **Data Networks**
the next phase beckons
- **STL is ready**
an ecosystem Innovator
- **Two Innovation Engines**
delivering performance and growth
- **The Future is Exciting**
ambitious growth, sustainable financials

The Future is Exciting

Network creators are investing heavily in the new ecosystem

Telcos

huge 5G investments in mobility, backhaul

Cloud Players

many hyperscale and edge Data centres

Citizen Networks

large scale coverage to achieve 100% reach

Enterprise

massive modernization, new applications

5G Commercial launches across the globe starting to pick pace

Cloud Capex on the rise with a CAGR of 12%

FastTrack Nationwide digital inclusivity program

Network modernization & internal communication network

STL is focussed on

1 Network Services:

- **Investments by Citizen Networks & Enterprises in India to Continue** leading to order book growth.
- **Strong Revenue growth** in Network Services on the back of **Customer segments penetration, geographic expansion & scope expansion** & to move towards **Leadership in India.**
- STL shall continue to **invest to acquire new technologies & new capabilities**, and **ride the disruptive trends** shaping the networks of the future

2 Connectivity Solutions:

- **5G** Commercially launched globally; **Deployment** to pick pace; shall lead to **demand growth in Optical Fiber.**
- **Capacity Utilisation to double on new market entry** & Industry expansion
- Pricing Structure improvement

Growing Order Book and Addressable market

Journey towards Expanding Addressable Market

2017

2023

Order Book Growth (INR Cr.)

Order Book

With strong financial priorities and governance

Growth

- Profitable Organic Growth
- EPS accretive strategic acquisitions
- Commitment to R&D and Talent

Earnings

- Drive sustainable EPS growth
- Attain earning objectives across economic cycles
- ROCE > 25%

Capital Allocation

- Focus on Free Cash Flow Generation
- Sound Leverage and Working Capital Ratio
- Stated dividend policy with consistent returns to shareholders

Data Networks

- Industry Evolution

STL

- An ecosystem Innovator

Business Overview

The Future is Exciting

Appendix

Financials : Detailed

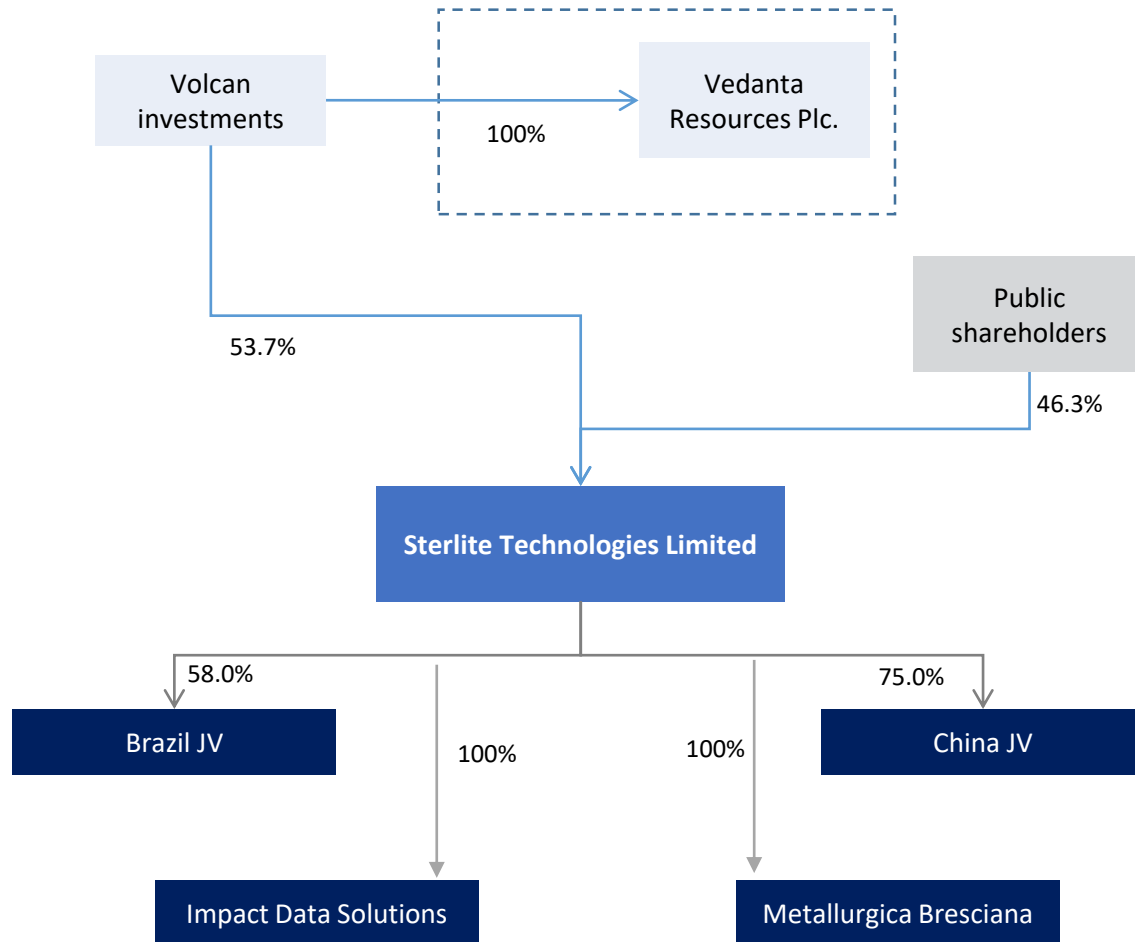

P&L (INR Cr.)	FY'19	9M FY'19	9M FY'20	Q3 FY'20
Revenue	5,087	3,296	3,994	1,203
EBIDTA	1,164	836	877	247
EBITDA %	23%	25%	22%	21%
Depreciation	195	145	213	70
EBIT	969	691	664	177
Interest	105	75	162	56
Exceptional Items	-	-	51	51
PBT	864	616	451	71
Tax	278	196	96	19
Net Income (After Minority Interest)	563	398	354	53
Net Income <i>Adjusted for exceptional item net of tax</i>	563	398	392	91

Balance Sheet (INR Cr.)	FY'19	Q2 FY'20
Net Worth	1,815	1,890
Net Debt	1,733	1,725
Total	3,548	3,615
Fixed Assets	2,356	2,524
Goodwill	107	166
Net Working Capital	1,085	925
Total	3,548	3,615

Corporate Structure & Shareholding Pattern

Corporate structure

5G Commercial Services starting to pick pace

Expansion of 5G network in US

AT&T, Verizon each expand 5G service to new markets

China rolls out 5G, plans big investment

- ~6mn base stations planned

China rolls out 'one of the world's largest' 5G networks

Large scale 5G rollout expected in Europe

Europe targets 5G rollout in every major city by 2020

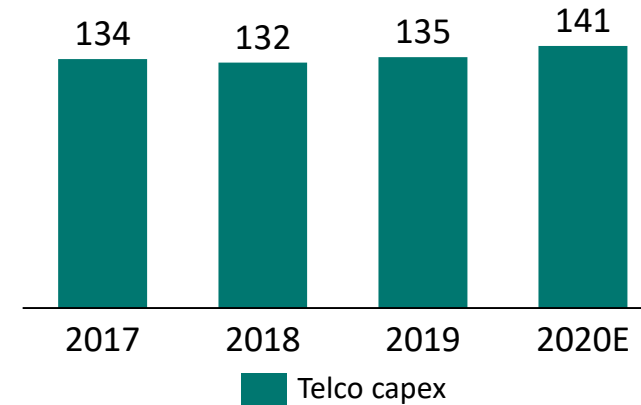

Profitability to pave way for Future Investments

Tariff hikes to double telcos' Ebitda: Crisil

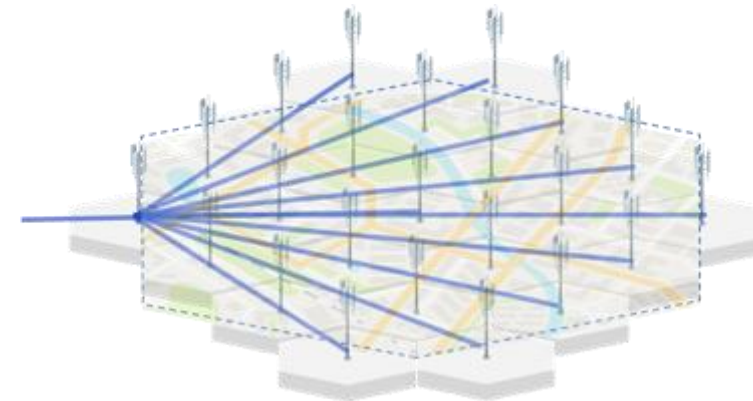

In the last few weeks, Airtel, Vodafone and Jio have increased their tariff- a first since 2016.

Global Telco's Capex (\$bn)

US (Top 4) + Europe (Top 5) + China

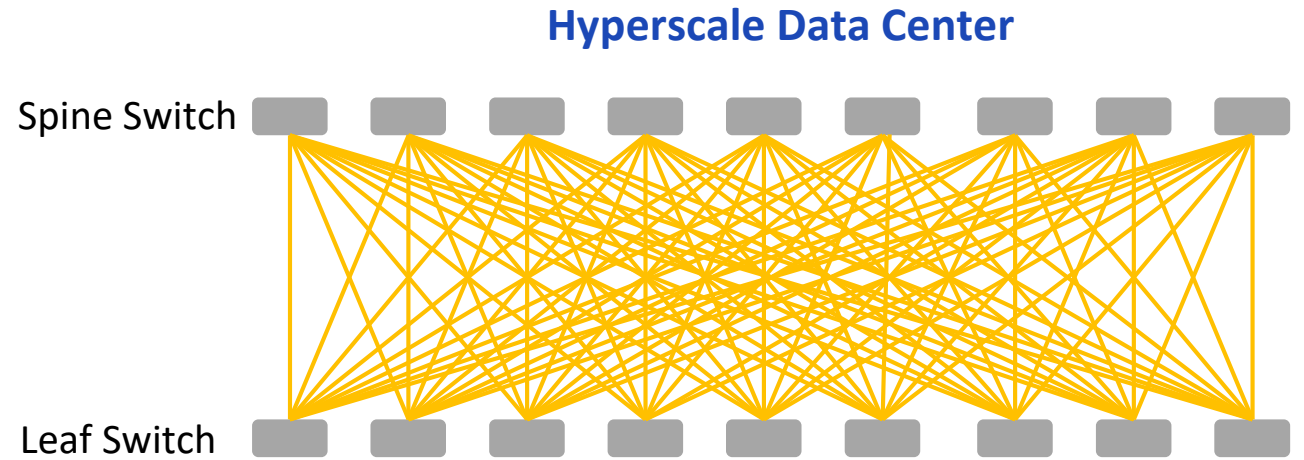

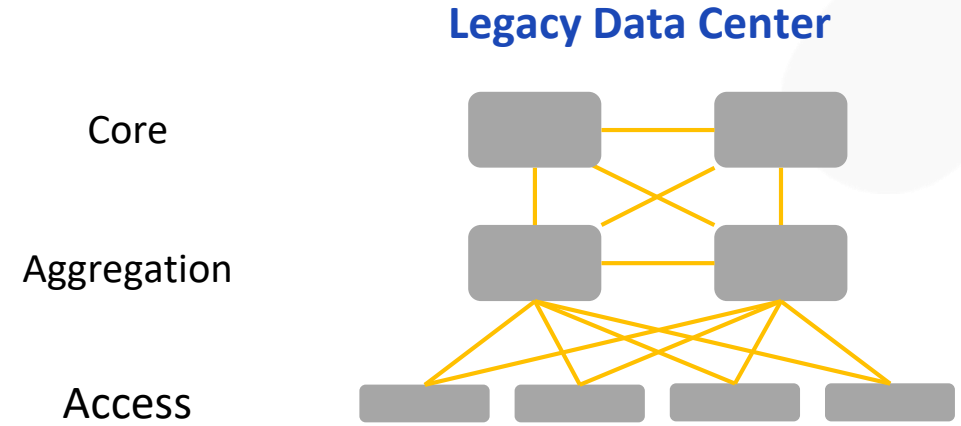

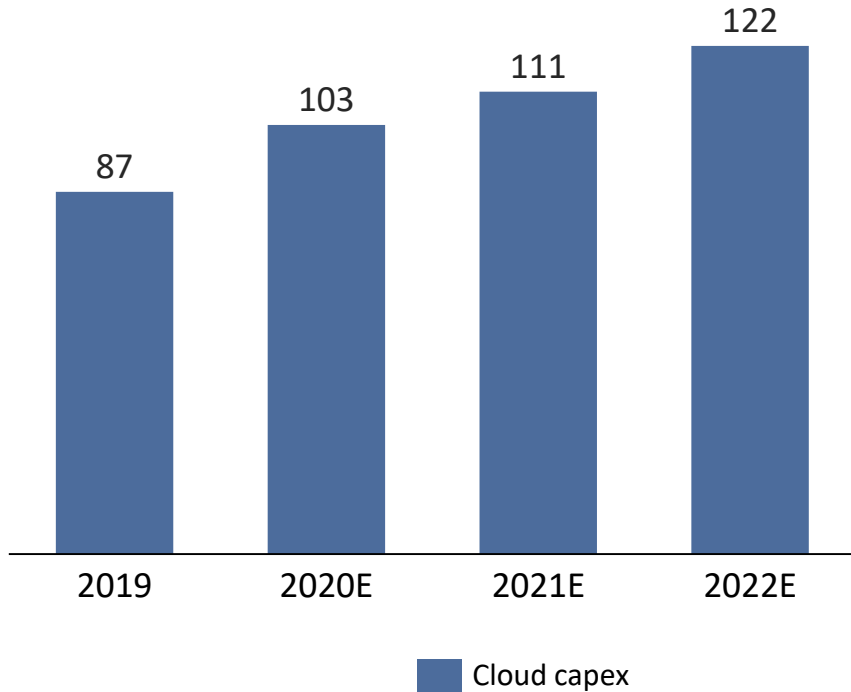

To increase with upcoming 5G deployments

5G will require significantly more fibre than 4G

Cloud companies continue to invest heavily

Cloud capex on the rise (\$bn)

National Broadband Mission

Vision

- Broadband connectivity to all villages by 2022
- Investment of **\$100 Bn.** in next 4 years from both government and industry

Features

- Deployment of additional **optical fiber cable** of **3Mn Km route km**
- **Fiberization of towers:** From 30% to 70%
- **Tower density:** From 0.42 to 1.0 per thousand population

Large Indian enterprises continues to invest in digital infrastructure

Defence

Investing in Network Modernisation, Secure data Communications & Physical Security

Railways

Investing in signalling and telecom systems to improve speed & safety

Power Grid

Investing in Smart Grid & modern MPLS/SD WAN Networks

beyond tomorrow
